Over two thirds of students surveyed in the LSCP 2021 Keeping Safe Online Survey indicated that their parents didn't know everything about their online activities. The survey also showed when parents talked openly to their children about their activity online, those students were less likely to experience cyberbullying and more likely to access support.

We want to give you the information and tools to help you feel confident enough to protect your children and young people from online harm. Dan Hawbrook our resident Online Guru will chat you through different apps, online trends, parental controls and any other burning questions you may have! Sign up is required.
